(“the client” or “procuring entity”), and intends to apply part of the proceeds for the recruitment of consulting services, for which this REOI is issued.

1. Purpose and objectives of the Assignment.

Overall Objective of the Assignment

The Adaptive Agriculture and Rangeland Rehabilitation (A2R2) Project represents a cornerstone initiative under the Federal Government of Somalia’s national strategy to build climate resilience, enhance agricultural productivity, and restore degraded rangelands across arid and semi-arid regions. Implemented in partnership with the International Fund for Agricultural Development (IFAD), the Global Environment Facility (GEF), and the Global Agriculture and Food Security Program (GAFSP), the project is designed to strengthen both institutional systems and community livelihoods through an integrated approach that combines policy reform, natural resource management, and capacity enhancement.

The A2R2 Project operates in seven high-priority districts Belet Weyne, Baydhaba, Dhuusamarreeb, Galkacyo, Cabudwaaq, Kismayo, and Bardere representing the diverse agro-ecological zones of Somalia’s Federal Member States (FMS). The project seeks to directly benefit approximately **72,000 households** through investments in water harvesting, rangeland restoration, and climate-smart agriculture, while simultaneously improving the enabling institutional environment at Federal and FMS levels.

2. Specific Objectives of the Assignment

To strengthen environmental governance and community resilience by developing comprehensive awareness materials for selected Federal Member States in Somalia.

- Assess awareness and communication needs related to climate change, LDN, and biodiversity.
- Develop culturally appropriate, gender-responsive, and user-friendly ECA materials.
- Pilot and validate materials with stakeholders.

- Develop a dissemination and capacity-building plan.
- Enhance environmental literacy and behavioral change among target audiences.
